The Miracle League of Louisville is a baseball league and complex for children and adults with physical, cognitive, and/or emotional disabilities. This one-of-a-kind, fully-inclusive complex will allow children of all abilities to safely play baseball in an organized league. Our Miracle League field features a specially designed, rubberized surface to prevent injuries and accommodate wheelchairs, walkers, and other devices. The adjacent playground will bring children, families and the community to the Miracle League for a common goal...to play together.

The Miracle League will not exclude any player based on financial need and we want our field to be filled with children and young adults playing baseball on organized teams this summer. Please join us on Monday, May 13 for more information on how you can be part of this incredible experience!
